## MIGRATION - 23 YEAR OLD RUM

Our reserve rum is truly a one of a kind experience. Made using our Master Blender's proprietary yeast, 100 year old copper column stills and molasses refined from sugar cane grown in the nutrient rich soils deep in the jungles of Panama. Migration is then carefully aged in hand selected young and matured American oak ex-bourbon casts.

*Tasting Notes:* A soft caramel bouquet, followed by deep layered aromas of vanilla and oak, with a hint of tobacco, praline, pecan and orange peel. Full-bodied with complex expressions of figs, bourbon and a very long dry and warm finish with notes of Muscat wine and toasted nuts.
